II. Organizational Context and Purpose for the job

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programmes, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

Job organizational context:

The war in Ukraine has triggered the fastest growing refugee crisis since World War II. By 23 April 2022, more than 774,000 refugees from Ukraine had arrived in Romania. The overwhelming majority of refugees are women and children, often separated from husbands and fathers who remained in Ukraine; older people; and significant numbers of unaccompanied children, including those from state care facilities.

Local and national authorities have established reception facilities at border crossing points to receive new arrivals and are providing life-saving assistance, including accommodation, food, and other basic needs, as well as onward transport for those moving to urban centers. In the reception centers, information is also provided on the asylum process and temporary protection, as well as on the risks of trafficking. Access to basic rights and services, such as health, has been facilitated. Steps have already been taken to foster protection and inclusion into national systems, such as for health and education. Referral services are being scaled up, focusing especially on case management and protection of unaccompanied children and those evacuated from boarding schools, institutions and other alternative care arrangements, survivors of gender-based violence (GBV), victims of trafficking, persons with disabilities and other vulnerable groups

UNICEF Romania Country Office is involved in the emergency response by supporting the national government and local partners in delivering assistance and protection services.
