Timely sectoral analysis, input and support contribute to the Situation Analysis and its periodic update for effective project planning, development and management. <ul style="list-style-type: none"> <li>• Contributes to the preparation of the Situation Analysis by compiling, analysing and evaluating information and providing the technical input and support to Health &amp; Nutrition interventions and its periodic update. Prepares sectoral input to the Country Programme Document and all related documents (e.g., Country Programme Recommendation, Plans of Action, Country Programme Summary Sheet). Contributes to the consultation and coordination with key partners at all levels.</li> </ul> </li> <li>2. Quality technical contributions are made to the development and implementation of Integrated Health &amp; Nutrition strategies and approaches through participation and collaboration with internal and external partnership.</li> </ol>		

- Works with other UNICEF sectors, particularly Health, Nutrition, CSD, HIV/AIDS, WASH and programme communication to ensure integration of the Health & Nutrition programme with other sectors. Contributes to build on intersectoral experience and establish partnerships to promote innovative approaches to address immediate and underlying determinants of maternal, new-born and child health and nutrition, recognizing that health and nutrition outcomes are not the results of action in the health and nutrition sectors alone.
- Participates with UNICEF, Government, non-government organizations (NGOs) and other partners in the development of strategies and approaches relating to Health & Nutrition. Monitors status to ensure achievement of strategic results in line with agreed Annual and Country Programme objectives and adopts corrective action to meet programme/project objectives.
- Contributes to the identification and introduction of new approaches, methods and practices in project management for improving programme delivery with emphasis on sustainability of intervention and community participation.

3. Work plan and objectives are strategically established, implementation support is effectively provided, and planned results are timely delivered through application of technical expertise.

- As functional leader of the Health & Nutrition group, exercises technical and programme management leadership for the development and implementation of the results-based sectoral work plan and objectives as well as for administration and monitoring of sectoral project activities, consistent with the defined project strategic priorities and approaches.
- Ensures objectives and targets are timely achieved, through full coordination between activities and collaboration with implementing partners, by providing guidance and support to staff of Health & Nutrition.

4. Project implementation progress is monitored and evaluated for adjustment, acceleration and improvement of program delivery and sustainability.

- Undertakes field visits to monitor programmes, as well as participates in periodic programme reviews with government counterparts and other partners. Identifies necessary action for programme adjustments. Provides technical advice and support to government officials and implementing partners in the planning and management of the Health & Nutrition interventions and ensures their sustainability. Support maintenance of information system for monitoring gender sex aggregated data.

5. Technical support is provided to government and NGOs at various stages of the project implementation, monitoring and evaluation, including capacity building of government personnel and beneficiaries.

- Provides technical support to government and NGOs in the planning, development, implementation, and evaluation stages of the programmes/projects.
- Identifies training needs; designs and conducts training and orientation activities for government personnel and beneficiaries and other relevant partners, for the purpose of capacity building, sustainability of programme/projects and expansion of coverage of services.

6. The capacities of Country Office staff are strengthened through effective capacity building support in the development, implementation and management of the Health & Nutrition programme.

- Designs and implement a staff training/development programme to upgrade the capacity of the Country Office staff with regard to competencies for technical requirements as well as for the programme development, implementation and management of Health & Nutrition programme. Conducts relevant orientation, workshop, training and staff learning/development activities, including relying on technical partnership with collaborating agencies to provide state-of-the-art technical information to staff.

7. UNICEF and Government accountability is ensured for supply and non-supply assistance and disbursement of programme funds for Health & Nutrition.

- Coordinating with Operations and Supply staff on supply and non-supply assistance activities, ensures UNICEF, Government partner and all implementing partners accountability. Certifies disbursements of funds, ensuring those activities are within established plans of action and programme budget allotments; and to orientate and train Government and UNICEF implementing partners in UNICEF supply and non-supply policies and procedures. Monitors the overall allocation and disbursement of programme funds, making sure that funds are properly coordinated, monitored and liquidated. Submits financial status reports to management in compliance with the regulations and guidelines.

8. Effective working relationships with internal and external counterparts are kept maintained for advocacy, technical coordination, information sharing and knowledge networking.

- Coordinates activities and exchanges information and knowledge with other programmes to contribute to achievement of overall country programme objectives. Builds up effective monitoring, knowledge database/network and reporting systems to ensure the availability of current and accurate programme information/data, and contributes to the development of communication materials and strategies to support advocacy and community participation for Health & Nutrition; and to widen partnership with all stakeholder at national, regional, district, community and household levels as well as with funding partners including the private sector in order to accelerate achievement of Health and Nutrition related MDGs goals.
- Facilitates partnership and collaboration with external counterparts, including those of the UN and national partners, in order to improve the ability to collect and disseminate relevant data, and to exchange information on programme/project development and implementation. Facilitates exchange of knowledge, information, experience and lessons learned.

9. Relevant and strategic information is kept available to support the Health & Nutrition. Programme by the effective implementation of an integrated monitoring system.

- In collaboration with monitoring and evaluation and program communication colleagues, conducts accurate and timely monitoring and data collection, and supports an integrated monitoring system, in consultation with all relevant stakeholders.
- Coordinates with partners to ensure that monitoring systems are properly designed, and that data collection and analysis from field visits are coordinated and standardised across programmes to feed into to programme performance monitoring.
- Provides assistance for evaluation exercises, programme mid-term review, annual sector review and preview meetings with Government counterparts and all other relevant partners. Analyses and evaluates monitoring data, ensures achievement of objectives and proposes corrective measures as appropriate.

10. Required programme/project reports are timely prepared in compliance with the established guidelines and procedures.

- Contributes to the timely preparation of annual sector status reports and shares information with relevant partners as required in compliance with the established guidelines and procedures. Participates in the preparation of all programme reports for management, Board, donors, budget reviews, programme analysis, and annual reports.

11. Emergency preparedness is maintained, and in emergencies, emergency responses with effective coordination are provided.

- Supports emergency preparedness plan relating to Health & Nutrition. In case of emergency, assists in monitoring and assessing the nature and extent of the emergency in the assigned area, as required. Provides assistance to the Country Office in identifying where support is required. In line with the Core Commitments for Children (CCCs) in Humanitarian Action, strengthens partnerships with the Health and Nutrition humanitarian actors within the Inter-Agency Standing Committee (IASC).

12. Other assigned duties and responsibilities are effectively accomplished.

- Assumes any other duties and responsibilities assigned as appropriate to the purpose of this post, and delivers the results as required.

#### Job Grade Factors

- Typically, as the functional leader of a sectoral group, provides technical leadership, guidance and direction for sectoral and inter- sectoral programme development, design, planning, implementation, and administration of specific project activities within a country programme in a small to medium size country office structure.
- As a seasoned professional technical specialist, the incumbent is held accountable for timely and effective technical contribution to the preparation of situation analysis, programme documents, programme strategy, planning, implementation, monitoring and reporting.
- As head of Health & Nutrition group, holds primary responsibility for the achievement of sectoral programme priorities and objectives consistent with the established strategy.
- Holds contributory responsibility for strategic recommendations and decisions on situation analysis and programme/project strategy development.
- Assumes primary responsibility for effective management of the sectoral cluster, including oversight/supervision of project staff, financial accountability of funds and human resources management and development.
