II. Organizational Context and Purpose for the job

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programmes, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

Job organizational context: The Education Manager GJP is to be used in a large Country Office (CO) where the Representative is at the D2/D1 level and the Education Programme is a component of the Country Programme (or UNDAF). The Specialist reports to the **Chief, Education who is at P5 level**.

Purpose for the job: Under the overall guidance and direction of the **Chief, Education**, the Education Manager supports the Chief in managing the section, playing a key role in bringing innovation to the development and preparation of education programmes. The Education Manager provides authoritative technical guidance and operational support throughout all stages of programming to facilitate the management and delivery of results on strengthening national education systems to improve learning outcomes and to promote universal access to quality, equitable and inclusive primary/early childhood education, especially for children who are marginalized, disadvantaged and excluded in society.

The Education Manager contributes to the achievement of concrete and sustainable results according to plans, allocation, results based-management approaches and methodology (RBM), as well as UNICEF's Strategic Plans, standards of performance and accountability framework.

Education and skill for adolescent and young people has emerged as critical component of education programme in the Country Programme following a strong foundational work from the previous country program, global priority and global education strategy that is clearly aligning with the national priorities. Bangladesh is also one of the front runner countries of GenU, a HQ initiative and the focus on the second decade. The Honorable Prime Minister of Bangladesh has been declared as a 'Skill Champion' by Global UNICEF for her increasing effort to invest in young people and skills. This has opened a window among the governance system to embed right sets of policies, guidelines and resources to

forward education, skills and employment agenda of young people. Considering the strategic move, the multiple ministries and stakeholders' involvement and a comparatively new working area, this position leads the pillar on Education and skills for adolescents, OOSC and employability. This post will also ensure that Education Section and the Country Programme benefits from the demographic dividend with education, skills and employability, which is a high priority for Government and UNICEF.
