### II. Organizational Context and Purpose for the job

The fundamental and primary mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programs, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in child survival, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

#### **Strategic office context:**

The Operations function is a strategic Business Partner role, assuring the best use of UNICEF assets in alignment with sound management practices, office priorities and goals to deliver results for children.

#### **Purpose of the job**

As a Strategic Business Partner, the incumbent will be accountable for operations functions, facilitate change, provide risk informed, solution-focused analysis, advice and services and contribute to programme and management decisions for delivering results for children in specific operational contexts.
