Analyses data and information, and drafts progress reports; drafts changes in project work plans, as required. Monitors to ensure objectives and targets are timely met and achieved, through effective coordination and collaboration, by participating in a teamwork of professional and support staff.</li> </ul> </li> </ol>		

- Assists in the planning and organizing training/development activities to upgrade the capacity of the Country Office staff as well as government and NGOs in the programme development, implementation and management of Health & Nutrition programme. Assists in Identifying training needs and conducts relevant orientation, workshop, training and learning/development activities for the staff as well as for government personnel and beneficiaries, in collaboration with knowledge institutions.

4. Project efficiency and effectiveness are enhanced through effective implementation follow-up.

- Provides timely implementation follow-up, including monitoring UNICEF inputs, local conditions and resources, flow of supply and non-supply assistance, and project status to build on project efficiency and effectiveness.
- Assists in identification and selection of Health & Nutrition supplies and equipment. Follows up on delivery of cash assistance and liquidation of advances and proper planning, delivery and use of supply component of the project. Ensures that activities are in accordance with plans of action. Records information on utilization of resources and distribution of supplies.

5. Project implementation progress is monitored for adjustment and improvement of program delivery and sustainability. Gender/sex disaggregated data and inputs provided relevant to the Health & Nutrition programme.

- Participates in the field visits to UNICEF project sites for monitoring project activities and local conditions, and follows up with local government counterparts and other partners on project implementation. Assists in identifying necessary action for programme adjustments, acceleration, improvement and sustainability. Assists government counterparts and other partners in the planning and management of Health and Nutrition Programme. Reports to supervisor and/or Head of Office the outcome of programme monitoring and review meetings with Government counterparts and all other relevant partners. Drafts changes in programme work plans as required. Support maintenance of information system for monitoring gender/sex disaggregated data.

6. Transparency is ensured for supply and non-supply assistance and disbursement of programme funds for Health & Nutrition.

- Coordinating with Operations and Supply staff on supply and non-supply assistance activities, ensures UNICEF and Government partner and all implementing partners accountability. Liaises with local authorities to ensure timely submission of financial requests and reports. Monitors disbursements of funds, ensuring those activities are within established plans of action and programme budget allotments; and to orientate and train Government and UNICEF implementing partners in UNICEF supply and non-supply policies and procedures. Drafts financial status reports for management as required.

7. Effective partnership and working relationships are maintained for advocacy, technical coordination, information sharing and knowledge networking.

- Exchanges information and knowledge with other programmes to contribute to achievement of overall country programme objectives. Assists in establishing effective monitoring, knowledge database/network and reporting systems to ensure the availability of current and accurate programme information/data, and contributes to the development of communication materials and strategies to support advocacy and community participation for Health & Nutrition; and to widen partnership with all stakeholder at national, regional, district, community and household levels as well as with funding partners including the private sector in order to accelerate achievement of Health and Nutrition related MDGs goals.
- Keeps close contacts with external counterparts, including those of the UN and national partners, in order to improve the ability to collect and disseminate relevant data, exchange information on programme/project development and implementation. Shares knowledge, information, experience and lessons learned.

8. Up-to-date programme information is kept available and reports prepared to support the Health & Nutrition programme by the effective implementation of integrated monitoring system.

- In consultation with monitoring and evaluation colleagues, conducts accurate and timely monitoring and data collection, and supports an integrated monitoring system, in consultation with all relevant stakeholders..
- Assists with partners to ensure that monitoring systems are properly designed, and that data collection and analysis from field visits are coordinated and standardised across programmes to feed into to programme performance monitoring.
- Analyses monitoring data, and provides feed-forward or recommends adjustment as appropriate to ensure achievement of programme objectives.
- Assists in the timely preparation of annual sector status reports in compliance with the established guidelines and procedures. Assists in the drafting and preparation of programme reports for management, Board, donors, budget reviews, programme analysis, and annual reports, as required.

9. Emergency preparedness is maintained, and in emergencies, emergency responses are effectively provided.

- Assists in the implementation of emergency preparedness plan relating to Health & Nutrition. In case of emergency, assists in monitoring and assessing the nature and extent of the emergency in the assigned area. Provides assistance to the Country Office as required In line with the Core Commitments for Children (CCCs) in Humanitarian Action, strengthens partnerships with the Health and Nutrition humanitarian actors within the Inter-Agency Standing Committee (IASC).

10. Other assigned duties and responsibilities are effectively accomplished.

- Performs any other duties and responsibilities assigned as appropriate to the purpose of this post, and delivers the results as required.

#### Job Grade Factors

- The scope of the job duties range from proper data collection and analysis, the timely preparation of routine, concise and accurate monitoring reports, including monitoring project status and the flow of supply and non supply assistance, recommending appropriate adjustments as required, to preparation of timely and accurate budget reports.

- The job requires primarily professional analytical and contributory technical work, including collection and assembly of data and background information; prepares tables, graphs or other statistical data for technical review and monitoring purposes. Individual decisions will be mostly technical judgement on the processing of the work, subject to the consent from the supervisor. The work must contribute to the achievement of team's planned objectives at the professional quality level. The supervisor guides and oversees the work process, progress and end-results.

- Professional support work includes administration of ongoing programmes/projects within established rules and regulations.
