## II. Organizational Context and Purpose for the job

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programs, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

### Job organizational context

The Supply and Logistics Officer-Health reports to the Supply and Logistics Specialist as per the Country Office set-up for supervision and guidance. The Supply and Logistics Officer-Health provides technical and operational support as per the Country Office (CO) set-up and is responsible for managing the supply chains of health and nutrition section of Mozambique country office, or elements of the supply chains of a larger supply operation. The supply chain operations include planning, procurement, contracting, customs clearance, warehousing, in country transport and distribution, as well as monitoring of supplies, services and construction works. The incumbent supports management collaboration with programmes in defining supply interventions to meet programmatic needs and achieve results for children, and provides technical and advisory support to governments, national systems and partners on supply chain management.

### III. Key function, accountabilities and related duties/tasks

#### Summary of key functions/accountabilities:

1. **Supply Chain service delivery and emergency response**
2. **Collaboration with programme and implementing partners**
3. **Technical, advisory support to government/national systems**
4. **Innovation, products and markets**

#### 1. **Supply chain service delivery and emergency response**

- In consultation with supervisor, provide input to the Country Programme Action Planning and advice on Supply requirements for the Plan of Operations and Annual Work Plans. Participate in the planning, implementation, monitoring and evaluation of the supply chain operations, including establishment of performance indicators, and assessment of fit for purpose of products and services.
- Monitor and review supply spending and draft procurement strategies based on category management in order to focus on strategic, essential supplies and services that contribute to results for children, and support the establishment of long term agreements (LTAs) where relevant. Maintain highest level of integrity, ethical standards and accountability in the procurement of goods, contracting of services and construction work.
- Monitor progress of offshore and/or regional procurement of Child health and Nutrition supplies and take action to ensure timely customs clearance of supplies entering the country. Maintain appropriate warehousing, inventory management and in-country transport in support of the country programme implementation. Keep stakeholders/partners informed on the progress. Implement appropriate vendor management practices e.g. supply performance reviews.
- Analyze supply dashboards, implementation rates of key performance indicators and supply information/data from various systems and conduct root cause analysis of supply chain bottlenecks and challenges, with a view to drive improvements and ensure efficient and effective supply chains for children.
- Participate in the development of an emergency supply & logistics strategy for Child Health and Nutrition program based on risk assessment analysis and Programme assumptions. Ensure an emergency supply and logistics preparedness action plan for the Child Health and Nutrition section is established in line with Core Commitments for Children in Humanitarian Action (CCC), and implemented (establishment of relevant LTAs and frame agreements for emergency response, prepositioning of stock, and training of staff in the country office).
- Build strong working relations with Regional Chiefs of Supply/Regional Chief of Operations, as well as Supply Division, to align with global and regional approaches and initiatives in supply chain management.

#### 2. **Collaboration with programme and implementing partners**

- In collaboration with supervisor, develop close collaboration with Child Health and Nutrition section through involvement in programme design, planning, and preparation for implementation of supply components as well as monitoring and evaluation. Establish

accountability framework with programmes, for delivery of results for children.

- Prepare supply documentation to facilitate input to donor dialogue, and support development of supply components of proposals to donors including budgeting and use of innovative financing mechanisms for supplies, services and construction works.
- Support assessment of and collaboration with implementing partners including civil society, establishment of Programme Cooperation Agreements (PCAs), and monitoring of supply components under Harmonized Approach to Cash Transfers (HACT).
- Participate in events/meetings that build partnerships and collaborative relations with Government, UN organizations and bilateral counterparts in supply and logistics activities including harmonized and collaborative procurement.

### **3. Technical and advisory support to government/national systems**

- Provide input to promoting of supply chain strengthening and change management initiatives with governments and partners, to ensure efficient and effective supply chains for children.
- Provide input to capacity development initiatives in the area of supply chains for children, in close collaboration with supervisor and programme colleagues. Support supply components of health systems strengthening as might be relevant in the country context.
- Prepare relevant supply reports to facilitate advisory support to Governments/national systems in defining and determining supply solutions for children, such as use of procurement services; supply financing solutions; local market development; private sector engagement.
- Support on stock management using the currently accepted and used tool for monitoring vaccine stock and supplies (VIVA, SMT, SELV) in collaboration with Village reach and other partners
- Manage Procurement service-related issues at country office level as per SD procurement service guidelines and procedures.

### **4. Innovation, products and markets**

- Contribute to pilots and support the actual roll-out of new products and services, in close collaboration with supervisor and Supply Division.
- Support initiatives for promote critical thinking, innovative approaches and good practices on supply chain management within the organization as well as with externals to ensure effective and efficient supply chains for children.
- Further to analysis of supply spend and related procurement strategies, support initiatives to ensure local market development where relevant.

## **IV. Impact of Results**

The ability of the health officer (Logistics) to successfully plan, manage and oversee the effective and efficient supply chain management of goods, services and construction works for UNICEF programmes and the Government, directly impact on program goals and results for children. This in turn contributes to maintaining/enhancing the credibility of UNICEF as an effective and responsible manager of funds entrusted to the organization and to furthering UNICEF image as a competent organization for delivering cost effective and sustainable program results for children.
