II. Organizational Context and Purpose for the job

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programs, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an opportunity to survive, develop and reach their full potential, without discrimination, bias or favoritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfill their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

Job organizational context:

In the 1970s UNICEF established presence in Yemen to respond to the urgent needs of children in the poorest country in the Middle East. In 1991, Yemen ratified the Convention on the Rights of the Child and it was enacted immediately. Since then the country has been making steady progress for children until it plunged into a brutal conflict in 2015 but even before that, Yemen needed large amounts of humanitarian assistance.

In collaboration with local authorities, non-governmental organizations and community partners, UNICEF is working in all the governorates in Yemen to respond to the needs of children throughout the country with a continuum of services to help children survive and grow to their full potential through the following programmes: [Health](#), [Nutrition](#), [Water, Sanitation and Hygiene](#), [Basic Education](#), and [Child Protection](#).
