BACKGROUND AND JUSTIFICATION

The fundamental mission of UNICEF is to promote the rights of every child, everywhere, in everything the organization does — in programs, in advocacy and in operations. The equity strategy, emphasizing the most disadvantaged and excluded children and families, translates this commitment to children's rights into action. For UNICEF, equity means that all children have an equal opportunity to survive, develop and reach their full potential, without discrimination, bias or favouritism. To the degree that any child has an unequal chance in life — in its social, political, economic, civic and cultural dimensions — her or his rights are violated. There is growing evidence that investing in the health, education and protection of a society's most disadvantaged citizens — addressing inequity — not only will give all children the opportunity to fulfil their potential but also will lead to sustained growth and stability of countries. This is why the focus on equity is so vital. It accelerates progress towards realizing the human rights of all children, which is the universal mandate of UNICEF, as outlined by the Convention on the Rights of the Child, while also supporting the equitable development of nations.

However, despite decades of strong work in these sectoral areas, inequity remains. While progress is being made, something different is required to accelerate progress towards not just long term and sustainable development improvements. One method of driving significant impacts for the most vulnerable and excluded children who may still be left behind, is to ensure access to products and services. The procurement and logistics function help to ensure such access in realised and an optimized fashion by reaching the most remote, and hard to reach areas during both development and humanitarian situations.

The Supply section of UNICEF Malawi seeks to recruit two (2) national Procurement and Logistics Interns who are interested to enhance their educational experience through practical work assignments while being exposed to UNICEF's operations as well as learning on child rights and equity issues. The internship programme is also expected to provide Malawi country office with the assistance of qualified students specialized in supply chain management field. This will support the office in strengthening the supply chain management function in the Malawi Country Office. The interns will ensure accurate and timely processing of procurement requisitions (Sales Orders), supports procurement and contracting processes including drafting of tender documents, purchase orders/contracts and follows through to closure of the order, including maintaining of up-to-date filing of procurement documents, customs processing, warehousing and distributions with the overall goal of meeting the needs and requirements for UNICEF programmes.

OBJECTIVE AND SCOPE OF WORK

The main purpose of the internship programme will be to support development of their professional experience, to expose the Interns to UNICEF work as well as to promote learning on child rights and equity.
